INTRODUCTION

JAL Medical Singapore is a member company of a publicly listed manufacturer. Our head office is located in Hsinchu, Taiwan. Our production facilities are ISO 13485, and GMP certified. Our ultimate goal is to serve our global partners with a truly integrated biomedical manufacturing facility with a wide range of proprietary diabetic monitoring systems, personal use hearing aids and in-vitro diagnostic test kits.

The JAL Medical Group started its medical devices business more than 20 years ago. We are one of the world's leading manufacturers and global distributors of rapid diagnostic test kits, winning some of the world's largest STD test tenders in South Africa, Laos, Thailand, and Myanmar. The group is also the world's dominant global blood glucose monitoring systems and hearing aid manufacturer.

We are committed to serving our partners by manufacturing and distributing high-quality, reliable, competitive products and services to every continent. Our vision is to provide safe, reliable and cost-effective solutions in global markets.

Specimen: WB=Whole Blood, S=Serum, P=Plasma, AN=Anterior Nasal Swab, NP=Nasopharyngeal Swab, OP=Oropharyngeal Swab, U=Urine
Shelf Life: in vitro rapid diagnostic test valid for 24 months

COVID-19/RSV/ADV/FLU/MP Antigen(Nasal)

The COVID-19/RSV/ADV/FLU/MP Antigen Rapid Test is a lateral flow immunoassay intended for the in vitro rapid, simultaneous qualitative detection and differentiation of nucleocapsid antigen from severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), Influenza type A virus, Influenza type B virus, Respiratory Syncytial Virus (RSV), Adenovirus (ADV) and Mycoplasma pneumoniae (M. pneumoniae) directly from anterior nasal swab specimens obtained from individuals, who are suspected of respiratory viral infection consistent with COVID-19 by their healthcare providers, within the first seven days of symptoms onset.

- Accurate and reliable, clear results at 15-30 minutes
- Simultaneously detect and differentiate of COVID-19/RSV/ADV/FLU/MP
- Simple to use, no additional training or equipment required

Product Specifications

Product	Specimen	Product Format	Specifications	Accuracy	Reaction Time	Shelf Life
COVID-19/RSV/ADV/FLU/MP Antigen	Nasal Swab	Cassette	20 T/Kit	> 95%	15-30 minutes	24 months

RAPID DIAGNOSTIC TEST

Anti-H. Pylori H. Pylori Antigen

Anti-H. Pylori Rapid Test is a rapid, serological, lateral flow chromatographic immunoassay for the qualitative detection of antibodies (IgM, IgG, and IgA) to *Helicobacter pylori* (*H. pylori*) in human whole blood, serum, or plasma specimens. It is intended to be used by healthcare professionals as a screening test to aid diagnosis of infection with *H. pylori*.

H. Pylori Antigen Rapid Test is a rapid, lateral flow chromatographic immunoassay for the qualitative detection of *H. pylori* antigen in human fecal specimens. It is intended to be used by healthcare professionals as a screening test to aid diagnosis of infection with *H. pylori*.

- Accurate and reliable, clear results at 15 minutes
- Simple to use, no additional training or equipment required

Product Specifications

Product	Specimen	Product Format	Specifications	Accuracy	Reaction Time	Shelf Life
Anti-H. Pylori	WB/Serum/Plasma	Cassette	25/40 T/Kit	>92%	15-20 minutes	24 months
H. Pylori Antigen	Feces	Cassette	25/40 T/Kit	>97%	15-20 minutes	24 months
